There is no better remedy for skin and blood diseases, for loss of appetite, rheumatism, stomach and kidney troubles, general debility and all ills arising from impure, impoverished, devitalized blood.

It is unnecessary to suffer. Start treatment at once. Get a bottle of Hood's Sarsaparilla from your nearest druggist. You will be pleased with the results.

WATERFORD.

House on Fire.

The ringing of the church bell on New Year's day about one o'clock p. m., called the people forth to discover that the home of Dr. Stimpson was on fire. The chimney had burned out in the early morning and all danger was thought to be past when neighbors noticed a flame coming through the roof. A crowd quickly responded to the alarm with ladders, pails and fire extinguishers and by chopping away a portion of the roof, with water from the brook close by, and the fire extinguishers, soon had the fire out. The building was insured in the Harrison Mutual and adjuster Addison Millett was on the scene almost before the fire was out to arrange a settlement.

The annual meeting of the Congregational church was held Friday evening at which time the following officers were elected:—Clerk, Addison Millett; treasurer, Agnes Plummer; Standing Committee, F. H. We often hear the value of telephone service talked of, how quickly neighbors can get response to calls, thereby letting each other's wants and needs be known and procuring help if necessary. It is surely one of the greatest inventions of the age, but possibly it might be improved upon so to get immediate response at all times.

On New Year's day in this neighborhood, a party of young and as the old year began to fade to the new, some of the party wished the neighbors who were not with them, to know they were thinking of them, so went to telephone to call up three different families to wish them a "Happy New Year," but all were sleeping soundly and knew nothing of the continued ringing until the following day when the hosts of the party called them over the phone and told them how hard she and her guests labored to arouse the neighbors.

One of the more distant neighbors called up on New Year's day to inquire the cause of the family, fearing a fire or sickness or accident of some sort. The cause was a joke. Not all of the folks around here watch the old year out and the New Year in.

He gave a fair chance. His record shows that from September 1913 to September 1914, from 17 ducks (three of which were old ducks) the remainder of which were hatched in June, laid 2,559 eggs.

And these ducks had a mighty poor chance in winter, being kept in a dark corner of the stable, with no windows, light, sun, nor anything else to make them comfy.

He says give them the same chance that you would bid, and they will either make her cackle some or shut her beak.

Mr. Flint has at present 36 all told, ducks and drakes. He also has a fine flock of Buff Orpingtons.

He talked of taking his ducks and biddies this week to the Poultry Show at South Paris, but a couple of his cockerels overheard him talking about it, and got into a dispute as to which should go, and "you ought to see the other one now."

Colds are Often Most Serious. Stop Possible Complications.

The disregard of a Cold has often brought many a regret. The fact of Sneezing, Coughing, or a Fever should be warning enough that your system needs immediate attention. Certainly Loss of Sleep is most serious. It is a warning given by nature. It is a man's duty to himself to assist by doing his part. Your Plans for 1915

Isn't Now a Good Time to Take Stock of Your Financial Condition?

During the past five years how much of your income have you saved? Not as much as you should. Now is the time when you should take account of stock and make your plans for doing just a little more business than last year. The farmer should plan to take advantage of the present upheaval in Europe and raise crops that will sell at a premium when harvest time comes. /He should plan for increased acreage, more grain, more stock, better seed and better means of cultivation. The business man should take careful account of his affairs, ascertain his profits for the year just closed and find out how much it has cost him to do business. Then he can make intelligent preparation to do more business for the coming year and realize greater profits.

But to obtain the best results, the farmer and business man should be identified with this strong financial institution. The financial secrets of the community are locked within it. It helps the farmer, the business man, the widow and the children to conserve fortunes and invest them. In every way it exerts a beneficent influence, not only on those who frequent it, but on the community.

Each year sees the use of paying one's bills by check, become more universal. Nearly everyone is now paid by check and for the same reasons that he is paid by check, he should also pay HIS bills by check. A checking account saves time and insures correctness in money matters, and provides a faithful accounting of all moneys received and paid out, so that at the end of the year one can know whether they have merely earned their board and rent or have been able to save something.

The safe investment of surplus funds is of vital importance, to the individual or institution investing, and to the Bank upon whose advice the investment is made. This Bank has been selling bonds suitable for investment purposes, for many years. The knowledge and experience thus gained are at the disposal of its customers.

No matter what your financial problem is, whether to open a checking account, invest your idle money, buy Travelers' Checks, send money to Europe, telegraph money or obtain Money Orders, we want you to consider this a personal invitation to come into the Bank and talk over any financial matter. You affairs will be held strictly confidential and our experience and advice may prove helpful. We are confident we can help you if you will give us the opportunity.

Will you not now, at the commencement of the new year, seek the aid of this strong institution in extending your field and increasing the volume of your business?
